Every Child is Welcome: „JOIN A DAYCARE!“

Dear Parents and Guardians,

The next kindergarten year begins on August 1, 2025, and there are still available daycare spots. In recent years, there were too few daycare places in Bremen, and it was sometimes difficult to find a spot. Now, many new daycare places have been created. However, fewer children in Bremen attend daycare compared to other cities—often because many parents are not aware that it is now much easier to find a place, even though the "main registration phase" is already over.

Attending daycare is very valuable and important for children. Social interaction with other children, playing and learning together is fun, supports development, strengthens children, and is also excellent preparation for school.

Your child, too, can attend daycare this summer: there are still available spots in your neighborhood! You can still register your child for a daycare place at your preferred facilities. The easiest way is online at <https://kitaportal.bremen.de>.

You will need the child ID listed below. Therefore, please keep this letter safe.

Important! A child ID can only be used once to upload a child's information to a daycare portal account. The first account created must be used permanently.

When registering, after successfully uploading your child's data in the first step, do not enter the child ID and date of birth again. Instead, simply select your child as already registered.

If you need help with the registration, feel free to call or email us. You will find our contact details and further advisory services on the back of this letter.

With kind regards,

Your Parent Service Team
