

Declaration of consent for the conducting of antigen rapid tests for pupils in school

The consent of the parents or legal guardians is required for rapid tests to be carried out by pupils, under supervision in the school, to determine the presence of a COVID-19 infection. This consent applies for the tests and for the processing of the data usually associated with a positive test, which is available to the school.

Further information on the rapid tests can be found in the accompanying letter to parents. Revocation of this consent is possible at any time but does not affect the corona tests that are required by the Gesundheitsamt health authorities.

First and family name of the pupil to be tested

Home address

Telephone no./email address (of the legal guardians)

I

consent

do not consent

to my child carrying out a rapid self-test for the detection of a COVID-19 infection under supervision in the school.
